presents

LIBERTY LECTURE SERIES

with

Dr. Abraham Morgentaler

"Is There Male Menopause?"

Tuesday September 14, 2010

6:00PM - 8:00PM

Dr. Abraham Morgentaler, award winning physician and Professor of Urology at Harvard Medical School and Founder/Director of Men's Health Boston will give his widely acclaimed lecture entitled "Is There Male Menopause?" In this entertaining lecture Dr. Morgentaler takes the controversial stand that men experience something akin to menopause. The symptoms of reduced sexual desire and performance, brain fog, low energy and depressed mood can all be due to a decline in testosterone, and treatment can restore a rewarding sense of vitality and well-being.

Cocktails / Hors d'oeuvres / Q&A / Book Signing
